

**2008 CIK-FIA
EUROPEAN KF1-KZ1-KZ2 CHAMPIONSHIPS**
RND. 2 – MARIEMBOURG (B), 29.06.2008

VM MOTOR WITH THE BIG BOYS

VM Motor Racing invests in competing for the European Championship, an important setting necessary for not only stepping out racing wise, but also for getting important recognition on the world market. A test that racing wise VM motor has passed brilliantly proving to be a capable competitor for the best European manufacturers. Having supplied four engines to different drivers like Dutchmen, Barry De Boorder, Sander Kemna, a lovely girl Judith Van Der Linde and the Czech Adam Janous, VM Motor is present with the aim of getting through to the final stage of the race which foresees a selection of 81 drivers.

Always with the first ten over the five exciting qualifying heats, standard bearer Adam Janous is certainly no let down, he takes eighth twice, always up with the leaders. The bad luck suffered during one of the heats ruins Adam's results for the brilliant weekend, from rear start in both finals, he however manages to gain places to take 19th and 20th in first and second finals.

Next meeting is on 7th September again in France, where after having hosted to opening race in Angerville, the KZ2 circus will be racing at the fast track in Varennes, where the CIK-FIA is holding the last of the three European Championship rounds.
